Every Gulp Packs a WOW!!

HAVE A GREAT LIFE!  
DRINK THE BEST WATER!

The water is absolutely the best, from the best protected sources found locally. Our area of the Blue Ridge Mountains is known for great water. It is far purer than most best selling bottled waters on the market today and its profile supports good health and well-being, without the contamination that is commonly found in other brands. The plastic bottles are the highest rated PET labeled #1, which are also the safest and are BPA free with no leaching. They recycle very well to industry standards. The shelf and storage life of the WOW!! WATER and bottle are indefinite.

No additives or preservatives are present, and the water maintains an optimal 7.5± pH. For integrity, safety and security, it is bottled at the source from a confined and protected aquifer. The water is tested regularly in order to maintain high quality standards.
